Kirby Campbell- Rierson, Senator Baucus's office
Virginia Sloan, Senator Tester's office
Maren Olsen - Representative Rehburg's office

Hello Mike, Kirby, Virginia and Maren:

I am attaching another update that we've received from Thom Morin with EPI who is the contractor hired by Keller's insurance company to over see the oil spill along Highway 35. This covers more technical information than you may want to receive. There were some data files that were sent along with this to EPA but I'm not sure they would be very helpful to you so I'm just forwarding the document that explains the status of the cleanup. EPI is required to submit these status reports monthly to EPA. Please let me know if this is more information than you would prefer to receive and whether the updates that the homeowners receive from EPI is sufficient enough.

FYI, EPA did have a call with EPI to discuss their workplan and go over any issues. Following that call, we have had calls with all the displaced homeowners to provide an update and to hear their concerns. My hope is to get a status update that includes a question and answer section out to the homeowners in the next week. I will gladly share that with you as well.

Should you have any questions, please call me at 303-312-6083.

Sincerely, Libby Faulk

Status Update No. 2 - 8-11-08.pdf
